WHAT DOES SCODY STAND FOR?

SCODY stands for “Sporting Concepts of Distant Years” which embodies our emphasis on research and development and guides us in our pursuit of performance.

Beyond that, SCODY at its core strives to make people happy through exercise. It is about happiness from being part of something, from belonging, from challenging yourself, from looking good, feeling good and performing at your best.

We work with our sponsored athletes, teams, events and sporting regulators to promote exercise and activity throughout the community.

We supply high-quality performance wear and provide support through our communication channels to encourage activity throughout the broader community.

AUSTRALIAN MANUFACTURER

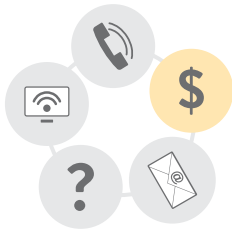

We pride ourselves in being one of the few local sports clothing manufacturers who still produce clothing in Australia. This allows unparalleled quality, production speed and innovation.

We develop our own patterns based on research and testing and source the best fabrics from all over the world to construct garments with an edge. We don't just put our name on someone else's product.

By creating our own garments we ensure we understand our clothing and are constantly adapting and improving our products based on feedback and testing to ensure our garments help athletes perform at their best.

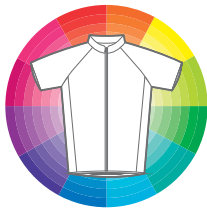

YOUR ORDER PROCESS

GET A QUOTE

Deal with your own allocated Account Manager for assistance with pricing, design, and sizing.

Your account manager will work with you to determine the best garment to suit your needs and provide a free quote.

DESIGN YOUR ARTWORK

Our design team will help you turn your ideas into fantastic garments that make you and your team look good and feel good.

Your dedicated Account Manager and design team will walk you through the design process to create unique garments that reflect your requirements.

PLACE YOUR ORDER

When you are happy with your design, quantity, and sizing, place your order with us.

If you're ordering for your team we also have our team Private Shops available where we collate the orders, collect payment and distribute the garments for you.

PRODUCTION

It takes us up to 6 weeks from order confirmation to produce your high-quality garments.

If you need your order sooner, your Account Manager will work with your to explore express options.

DELIVERY

We deliver on time, every time and we guarantee our work. We have a number of delivery options including bulk delivery, courier and individual dispatch.

All orders are shipped from our factory in West End and personally checked by our staff for quality assurance.

- Pro-Hydra Dura
- Dynamic Mesh

PERFORMANCE CYCLING

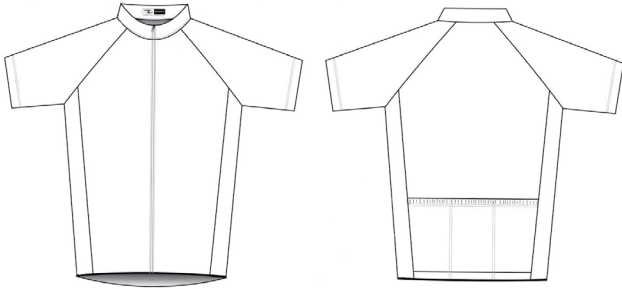

Perform at your best in our PerformanceCycling Range. Developed for comfort and durability. Utilising world class fabrics and production techniques

PERFORMANCE CYCLE JERSEY

MCJ007 / WCJ011

A technical cycle jersey engineered for performance with moisture wicking and anti microbial properties.

FEATURES

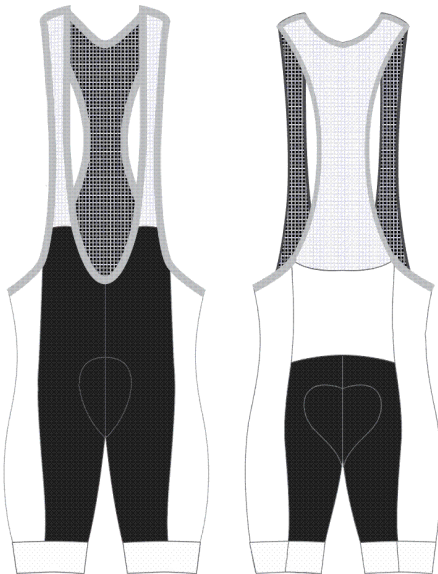

- **UPF 50+**
- Great thermoregulation and antimicrobial properties for to keep wearer cool and fresh.
- Superior comfort; the ergonomic design allows for freedom of movement.
- Available in Race and Relaxed fit.

SIZING MEN 2XS - 3XL WOMEN 6 - 18

FABRICS

- COOLMAX freshFX

PERFORMANCE CYCLE BIB & BRACE

MCB019 / WCB019

Designed for long distance performance in comfort . Our high performance cycling bib and brace provide an excellent combination of comfort and performance.

FEATURES

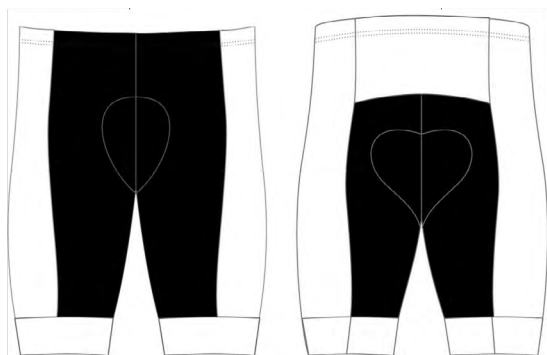

- **UPF 50+**
- Reinforced stitching in pressure areas.
- Great thermoregulation and antimicrobial properties for to keep wearer cool and fresh.
- Optimal comfort from Italian chamois with a seamless design, moisture wicking and foam density to suit riders of various body shapes.

SIZING MEN 2XS - 3XL WOMEN 6 - 18

FABRICS

- X-Opaque
- Pro-Hydra Dura
- Dynamic Mesh

PERFORMANCE CYCLE KNICKS

MCK009 / WCK009

A high performance cycling knicks which provide an excellent combination of comfort and performance.

FEATURES

- **UPF 50+**
- Reinforced stitching in pressure areas.
- Great thermoregulation and antimicrobial properties for to keep wearer cool and fresh.
- Optimal comfort from Italian chamois with a seamless design, moisture wicking and foam density to suit riders of various body shapes.

OPTIMISE SKINSUIT - SHORT SLEEVE

MCJ007 / WCJ011

Our most advanced skinsuit ever. The garment integrates innovative construction techniques and performance fabrics to achieve superior aerodynamics and thermoregulation.

FEATURES

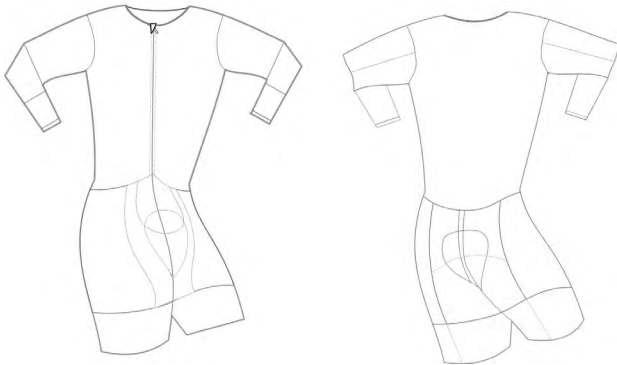

- **UPF 50+**
- Great thermoregulation and antimicrobial properties to keep wearer cool and fresh.
- Superior comfort; the ergonomic design allows for freedom of movement.
- Available in Race and Relaxed fit.
- Junior Sizing Available

SIZING MEN 2XS - 3XL WOMEN 6 - 18

FABRICS

- X-Opaque
- Pro-Hydra Dura
- Matrix
- Lite Flex

OPTIMISE SKINSUIT - LONG SLEEVE

MCB019 / WCB019

Our most advanced skinsuit ever. The garment integrates innovative construction techniques and performance fabrics to achieve superior aerodynamics and thermoregulation. With long sleeves for additional aerodynamic performance.

FEATURES

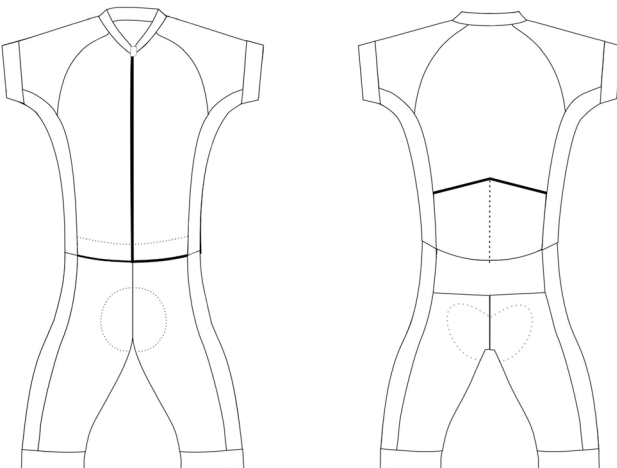

- **UPF 50+**
- Dimpled Matrix fabric in regions of high wind velocity.
- Reinforced stitching in pressure areas.
- Optimal comfort from Italian chamois with a seamless design, moisture wicking and foam density to suit riders of various body shapes.

SIZING MEN 2XS - 3XL WOMEN 6 - 18

The Scody Thermo-fit leg warmers made from Italian technical light weight thermal fabric will keep you warm yet comfortable during your winter rides.

FEATURES

- **UPF 50+**
- Ultralight quick dry fabric with a unique brushed underside which removes moisture from the skin and transports it through the fabric for quick evaporation.
- Soft gripper keeps the arm warmers in place
- Reinforced stitching in pressure areas such as seam join.

FABRICS

- Matrix

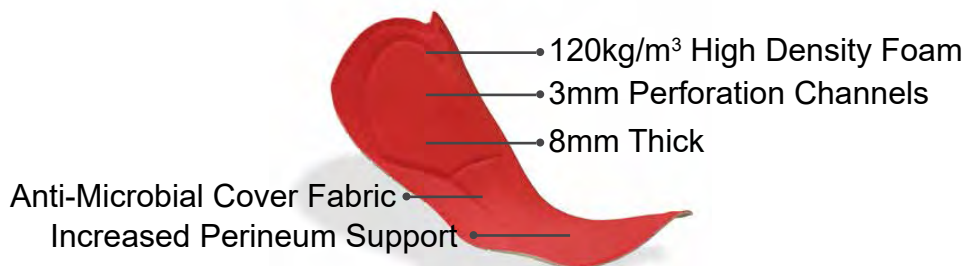

CHAMOIS

SCODY have, in consultation with our Italian manufacturer, specifically developed a chamois to suit both aggressive and recreational riders. We offer only our best chamois and change the shape for men and women. We use the highest quality possible in both foam and fabric. Each chamois is made from a single piece of laser shaped foam, which minimises movement between the rider and the saddle, reduces heat build-up and which promotes optimum moisture management. The cover fabric is soft and has antimicrobial properties.

Amstel CX

SCODY AmstelCX is the epitome of comfort with a 120kg/m foam construction and 'Laser Cutting Technology' which reduces abrasion-related injuries. The AmstelCX has increased Perineum support when racing, and Perforation Channels for breathability and dryness. Suits Large riders.

Flanders CX

The SCODY FlandersCX is our top-line chamois for Small to Medium sized riders with a 90kg/m foam construction. Like the AmstelCX, the FlandersCX also uses 'Laser Cutting Technology' and increased Perineum Support.

Femme CX

SCODY FemmeCX has been designed solely for the female cyclist. The FemmeCX has a specific construction to accommodate the female pelvic anatomy. Similar to the male chamois range, the FemmeCX also features Perforated Channels and an Anti-Microbial Cover Fabric to ensure the very best of comfort and breathability.

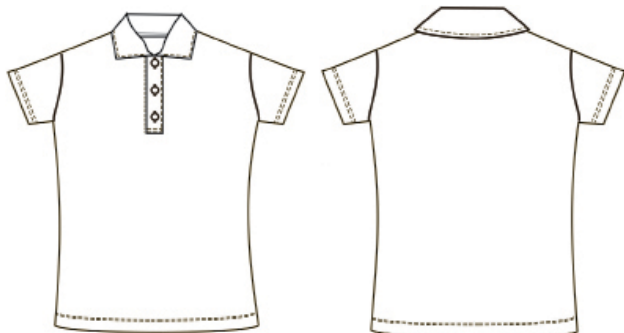

OFF THE BIKE

TEAM POLO

MPP009 / WPP009

High-performance polo with excellent moisture wicking, breathability and anti-microbial properties.

FEATURES

- **UPF 50+**
